Where we are

Right now there are 135 Four Points by Sheraton hotels in 22 countries—and others are on the way. Soon enough you'll see us in more big cities, small cities, resorts, airports, suburban areas and anywhere else you can imagine. And we've got plenty of room, too. Many of our hotels have over 4,000 square feet of meeting space. That means more great locations and lots of elbow room for your next conference, event or social function.

How to find us

Our website upgrades make booking easier than ever. Simplified search. Improved calendar. An easier rate list page. Search results with maps. And our New Hotels section makes finding any Four Points by Sheraton a breeze.
